RETAIL HARDSCAPES RETURN POLICIES

In order to ensure the integrity of our products and inventory, and ultimately the quality of the products we provide to our valued customers, Bachman's asks that you comply with the following return policies:

NO RETURNS ON ANY PRODUCTS AFTER 30 DAYS UNDER ANY CIRCUMSTANCES

Bulk Products

- There are no returns or refunds on any bulk products, delivery by Bachman's or picked up at the yard by you. This includes soils, mulches, landscape rock, sand, etc.

Boulders

- There are no returns or refunds on boulders delivered by Bachman's or picked up at the yard by you.
- In addition, please note that boulders may have some soil or sand in the bottom of the truck when delivered to protect the truck bed. This loose soil will be dumped with the boulders and is the customer's responsibility. Also, some boulders may have soil on them and simply need to be sprayed with a garden hose to clean.

Natural Stone

- Clean, re-usable and re-salable product (as determined by Bachman's) may be returned.
- A 20% restocking fee will be charged for return of full, quarry-wrapped pallets.
- A 50% restocking fee will be charged for partial pallets of natural stone; the stone must be returned on its pallet, stacked and separated by style, size, and color.

Concrete Retaining and Free-Standing Wall Block

- Clean, re-usable and re-salable product (as determined by Bachman's) may be returned.
- A 20% restocking fee will be charged for all returned wall block.
- Wall block that is sold only by full pallet (i.e. Highland Stone) must be returned as full, unbroken factory pallets. No partial pallets will be accepted for return.

Pavers

- Clean, re-usable and re-salable product (as determined by Bachman's) may be returned.
- A 20% restocking fee will be charged for all returned pavers.
- Pavers must be returned in full, unbroken factory bands, layers, or complete "sets" - whatever the minimum selling unit is. A "set" is determined by the ratio of the various sizes as palletized by the manufacturer.
- Paver circles must be returned in full, unbroken factory pallets.

Special Orders

- There are no returns or refunds on any special order products. This includes natural stone, pavers, retaining wall block, or any other non-stocked items ordered for you by Bachman's.
- Minimum special order is one pallet of wall block or pavers and 1.5 tons of natural stone.
- Special orders must be picked up at Bachman's yard or delivery scheduled by you within two weeks of order-ready date. Bachman's will notify you when product arrives at our yard.

NO RETURNS ON ANY PRODUCTS AFTER 30 DAYS UNDER ANY CIRCUMSTANCES.

Common Landscape Formulas and Coverage Estimates

$L \times W = \text{Square Feet}$

$3.1416 \times \text{radius} \times \text{radius} = \text{Square Feet}$

$\text{Circumference} = 3.1416 \times \text{Diameter}$

BULK MATERIALS ESTIMATING GUIDE—TO DETERMINE CUBIC YARDS NEEDED (1 CY = 27 CF)

MATERIAL DEPTH	1" (=0.083')	2" (=0.167')	3" (=0.25')	4" (=0.33')	6" (=0.5')	9" (=0.75')	10" (=0.833')	12" (=1')
Divide Area (SqFt) By:	324	162	108	81	54	36	33	27

Or:

Multiply the area by the depth (in feet) to calculate volume (in cubic feet).

Divide volume (in cubic feet) by 27 to determine number of cubic yards needed.

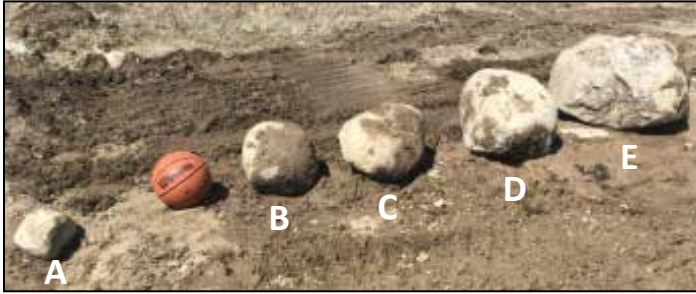

Calculations		
Paver Base	$A \div 200 \times D \times 1.25 = \text{Tons of Base}$	A = Area (in Square Feet) D = Depth (in Inches)
Paver Bedding Sand	$A \div 200 \times 1.25 = \text{Tons of Sand (1 inch thick)}$	A = Area (in Square Feet)
Wall Leveling Pad Aggregate	$L \div 27 \times 1.1 = \text{Cubic Yards of Base Aggregate}$	L = Length of Wall (in Feet)
Retaining Wall Drainage Aggregate	$(L \times H) \div 27 \times 1.1 = \text{Cubic Yards of Aggregate}$	L = Length of Wall (in Feet) H = Height of Wall (in Feet)

Weight and Coverage Estimations for Boulders

Estimated Weights per Boulder (2000 Lbs = 1 Ton)			
Size	Weight	Size	Weight
6"	10-15 Lbs.	18"	150-250 Lbs.
8"	20-30 Lbs.	20"	300-450 Lbs.
10"	40-50 Lbs.	24"	500-750 Lbs.
12"	60-90 Lbs.	30"	800-1000 Lbs.
15"	100-125 Lbs.	36"	1200-2000+ Lbs.

Estimated Coverage of Boulders	
Size	Coverage
6"-12"	15-20 SqFt of Wall/Ton
12"-18"	10-15 SqFt of Wall/Ton
18"-24"	6-10 SqFt of Wall/Ton
24"-30"	5-8 SqFt of Wall/Ton
30"-36"	3-6 SqFt of Wall/Ton
Rip Rap	Approximately 40 SqFt of Wall/Ton @ 3" Deep
6"-12" Edging	35-40 Linear Feet/Ton

Reference Information

Boulder	Approx. Diameter	Approx. Weight
A	8"	25 Lbs
B	12"	80 Lbs
C	18"	215 Lbs
D	24"	650 Lbs
E	30"	980 Lbs

The pile on the left is 1 yard of 1½" River Rock

The pile on the right is 3 yards of 1½" River Rock

Pile A is 1 yard = Approximately 4.5 wheelbarrows*

Pile B is 3 yards = Approximately 13.5 wheelbarrows*

Pile C is 5 yards = Approximately 22.5 wheelbarrows*

* Based on 6 cubic foot wheelbarrow shown in picture

Approximately 2 yards of mulch were used to cover the 9' x 20' parking space shown with about 3½ inches of mulch. This would be equivalent to about 9 wheelbarrows full based on the 6 cubic foot wheelbarrow shown in the picture.

Approximately 1 yard of mulch was used to cover the 13 foot diameter circle around the 12 inch diameter tree shown in the picture at a depth of about 2½ inches. 1 yard is equivalent to about (9) 3 cubic foot bags or (13½) 2 cubic foot bags of mulch.

A typical 2 inch tree would require only about one quarter yard of mulch to cover a 6 foot diameter circle of mulch around the tree. One quarter yard is equivalent to about (2) 3 cubic foot bags or (3) 2 cubic foot bags of mulch.

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

Bachman's Farmington
23004 Cedar Ave. So.
Farmington, MN 55024

Tel: 952-469-9665 | Fax: 952-469-9674

Retail Delivery Services

General Information

Due to the many variables, logistics, unforeseen circumstances, etc. that influence a daily delivery schedule, Bachman's cannot give you a time as to when your delivery will occur, only that it will be delivered on the day scheduled.

If you are planning a weekend project, please deliver at least a day in advance, and preferably as early in the week as possible. For example, if you have a crew coming at 7 a.m. on a Saturday morning, don't schedule your delivery for Saturday! Plan ahead and have Bachman's deliver earlier in the week.

Bulk Deliveries

Any bulk deliveries by Bachman's of mulch, topsoil, sand, landscape rock, etc. will only be dumped on your driveway unless product placement service is ordered (see below).

You can specify additional information such as left side or right side of driveway; in front of third stall; under basketball hoop; etc. and our driver will do his best to accommodate you. However, final dumping is at the discretion of Bachman's driver depending on safety, logistics, external factors (i.e. power lines overhead, etc.)

Under no circumstances will Bachman's drive and/or dump in your yard unless you are present and give permission.

You can aid our driver by marking your driveway with chalk, a tarp, etc. as to where you would like your load dumped. We also now offer Bachman's labeled marking flags to identify your drop location.

Boulder Deliveries

Boulder deliveries are DUMPED from the boulder truck onto your driveway, yard, etc. Be sure and designate a large enough space for the delivery site according to the number of tons ordered.

Dumped boulders can potentially bounce and roll; Bachman's is not responsible for any damage caused by dumped boulders. Bachman's drivers or their agents do everything possible to prevent residual damage from dumped boulders; however, because dumped boulders are "unpredictable", it is important to have a large space for your boulder delivery.

Palletized Deliveries

Delivered pallets of retaining wall block, pavers, natural stone, etc. are placed in your driveway.

Bachman's will do the best job possible in lining pallets up on the left side or right side of the driveway, or placing in front of third stall, etc. according to your instructions. Final placement of pallets is at the discretion of our driver.

If you are present for the delivery, our driver will, within reason, set the pallets as close to your job site as possible. However, the forklift that accompanies the flatbed semi-truck cannot navigate all terrains, especially sloped backyards, etc. Placement of the pallets is ultimately at the discretion of Bachman's driver and by agreeing to delivery by Bachman's you also agree to accept this decision of Bachman's driver.
